**Notes:**

- 1) The advisory team (up to 2 PhD elements) must include a PhD with a professional affiliation with ISA (mandatory); One of the supervisors may hold a specialist title (not a PhD), and the respective CV must be attached, for appreciation of the eventual quality of specialist.
- 2) If the student does all or a substantial part of the work in an institution outside ISA, and if it is not possible to have an external supervisor defined in accordance with the previous number, there may be a Mentor\* who will be a person from that institution who will accompany the student's work. Under these circumstances, the Mentor replaces a second supervisor.
