

EUROPEAN INNOVATION ACADEMY

The European Innovation Academy is an international summer school of entrepreneurship that includes participants from more than 75 nationalities and 60 different countries. The event will take place in Porto between the 17th of July and the 5th of August, 2022.

Aimed at all students from the best American, Asian and European universities, EIA is an immersive entrepreneurship program whose goal is to offer an experimental learning experience to help participants scale their business ideas. In addition to being a very practical experience, in the logic of “learning-by-doing”, it will also be an excellent opportunity to present projects to potential investors, also present at the event.

Over three weeks of intensive work, participants will be divided into multidisciplinary teams (so that the exchange of skills is even more complete). There will be one theme per week, with “Ideation & Formation” being the first. The following weeks will talk about “Prototype and Growth Hacking” and “Finding Users and Pitching.

Experts from Amazon, Airbnb, Google are some of the program's many speakers and mentors.

Don't miss this incredible opportunity!

To be one of the winners of this scholarship you will need:

- To be enrolled this year at a Portuguese University;
- Have between 18 to 30 years old;
- Good level of English;
- Have an entrepreneurial spirit, great motivation and believe that with your ideas you can change the world!
